MEMORANDUM FOR THE RECORD

FROM: [REDACTED]

Legislation Division

SUBJECT: OMB Legislative Referral - Draft GSA Proposal

On 24 March 1983, [REDACTED] L&PD called me. He said that neither he nor his clients had any objection to the draft General Services Administration (GSA) legislation to amend the Federal Property and Administrative Services Act of 1949. The clients were somewhat uneasy about it as it held the potential for GSA to charge the federal agencies more for GSA services. We agreed, however, this was only a possibility under the bill and that the concern was really a policy one, best solved through interagency negotiation at the time the GSA charges were set.

Accordingly, on 25 March 1983, I called the Office of Management and Budget to register a "no objection" on behalf of the Agency. In the absence of Gregory Jones to whom replies were to be directed, I gave our "no objection" to Bill Maxwell.
